Executive Summary

Without new leads, clients and profitable growth, the long term viability of any business has to be questioned. Yet it has become increasingly difficult to reach new clients with traditional marketing messages.

What everybody talks about these days is “engagement” and “relationships.” Yet, you and I both know that it’s virtually impossible to hang around all day shooting the breeze. Hoping that we’ll make some new friends, and that those friends will someday turn into clients. No thanks.

What busy companies like yours need is a SYSTEMATIC approach to convert cold prospects into warm leads.

A system for consistently adding new prospects to the top of the funnel, AND converting a high percentage into business via cultivating relationships.

My company has such a system...the LinkedAutomation™ Method.

1. What Doesn't Work & How to Design a System That Fails

I recently spoke with a marketing firm that helps their clients generate new business. Their primary focus is telemarketing (cold calling) and direct mail.

You probably will not be surprised to hear that they rely on reaching an extremely large number of prospects, because they get such a low % response rate.

The associate I spoke with stated, "We aim to generate 1 new lead a month for our clients. Sometimes we go months without generating anything."

(On a personal note, I was really floored by this. My company generates between 12-30 opportunities on a monthly basis for our clients. And this other marketing company charges a LOT more than mine.)

Here's what it comes down to. Cold calling and cold mailing don't really work. Sure, they can generate something every once in a while. But they sure as hell don't come close to a system that consistently generates real opportunities for business.

Here's another problem with the old approach. You alienate a LARGE portion of your market who is turned off by these old school marketing tactics.

When that happens, there's a real opportunity cost that in some cases outweighs the short term benefits of the few results that these efforts can bring.

So what do you do?

We call it “systematically building relationships to turn cold prospects into opportunities” and it generates a 30% response rate.

Footnote: Another thing that does not work? Not having something valuable to say. Luckily, our system solves that problem too.

2. What Does Work - The Guts of Our System

People do business with people that they KNOW, LIKE and TRUST.

That’s nothing new, you’ve heard it plenty of times before. Yet it remains very true.

Building relationships with new prospects is the very best way to turn them into new clients. Think about some of the new business and clients you’ve recently picked up.

Surely some of it has come from referrals. And some of it has probably come from prospects that you’ve been in contact with for a number of months, or even years.

Your relationships and contacts are at work for you every day, slowly moving people deeper into your funnel.

Now, what if you could accelerate this process with thousands of new prospects? My company has developed a methodology for achieving just that.

You see, most people are wasting time with their online marketing efforts. Social media? Please.

Instead of getting caught up in the time drain of Facebook and all the other latest fancy gadgets that everybody claims you “must be a part of,” my company has focused instead on building a system based on generating leads. We leverage the latest online platforms to actually create measurable business opportunities.

We're able to identify new prospects every month, and work them through a process that breaks down barriers, smashes through gatekeepers, and gets you on the phone with 30% of targeted business owners, CEO's, Presidents, CFO's...really, whoever your ideal prospect is.

3. How to Do It - The Process for Generating a Flood of New Leads

It all starts with the top of the funnel. Utilizing LinkedIn, you can quickly identify thousands of prospects that fit your prospect profile.

These are highly targeted prospects. And, because they're on LinkedIn...you know they're there to talk business. But that's where most people struggle with HOW to actually make that happen.

The key is to systematically reach out to these prospects in a non-salesy manner. When you reach out to prospects and leverage common contacts, many of these business leaders will be open to connecting with you. (Yes, there is an art & science to doing this the right way.)

The best sales people are engaging customers even before the purchase journey starts.

The place they're positioning themselves as trusted advisors by helping people in the learning phase of the purchase journey, to learn about new opportunities and think through ideas.

They are disseminating as much information that is "other people's stuff" as they do stuff that is about their business. By occasionally sprinkling in an insight that teaches a customer into their sales funnel, they earn the image of trusted advisor.

It's a totally new way of engaging with customers, and social media has made it possible. We find that the best salespeople are taking advantage of this in unique and powerful ways.

Now, this is really important. Once connected to a prospect, DO NOT start pitching. That's the best way to spoil the relationship.

Instead, you want to design and execute a campaign to stay in front of them on a regular basis. To position yourself as a trusted advisor.

This campaign should include 3 primary components:

1. Top of Mind Campaign via Status Updates
2. Personal Messaging Campaign (Position Yourself as a Trusted Resource)
3. Zero Moment of Truth (Strategy for Going for the Phone Call)

Top of Mind Campaign via Status Updates

Drip marketing requires executing on a set of activities over an extended period of time.

By keeping your name and message in front of prospects, you'll be the one they think of when they are in the market for your services.

With the decline of traditional interruption marketing tactics, LinkedIn status updates have become one of the most powerful mechanisms for achieving a top of mind drip campaign. But why is that?

LinkedIn is THE Social Media for B2B Businesses. Twitter may be the most effective social media channel for news distribution but LinkedIn is a better way to reach the audience that cares about you.

LinkedIn is now responsible for a staggering 66% of all visits from social media channels to corporate websites according to latest research, which tracked an average of 2m monthly visits to 60 corporate websites over two years.

LinkedIn reaches more business elite and c-suite monthly than any other international news and business website measured. LinkedIn attracts the highest number of business elite purchase decision makers with high net worth and big purchasing budgets.

LinkedIn is seen as an important business destination for senior executives globally as visitors most often come from strategic planning, management, finance and marketing functions.

Personal Messaging Campaign (Position Yourself as a Trusted Resource)

Where the action really happens is behind the scenes. This is why your competitors have no clue that these strategies even exist.

By working our finely tuned processes, we'll connect you with thousands of new prospects over time. And we'll keep you top of mind.

But the consistent lead generation happens behind the scenes, with a systematic messaging campaign. The purpose of this campaign is to position you and your firm as a trusted resource.

Over a short time frame, we'll send a number of personal one-on-one messages to your most important prospects.

For a while, these messages will contain nothing but valuable content, such as case studies, articles, conversation. Your prospects will appreciate it, and love the content.

Moment of Truth (Strategy for Going for the Phone Call)

Once we get them to this point, when they “know, like and trust” you, that’s when we go for the phone call. And at that point, they can hardly say no.

Using customized scripting, modified to meet your goals, you will see 30% of prospects targeted agree to a phone call with you.

At this stage, some of these prospects may be in the market for your services today. Those are certainly ideal situations.

Others might not be ready right away, but now you’ve got them. Now you’ve built rapport. You’re in.

For one, now you can work them through your typical funnel with email follow-ups, invitations to grab a coffee or a round of golf, whatever your typical marketing consists of. And on top of that, we’ll continue running our top of mind campaign.

What it boils down to is this. Some will become clients quickly. Others will require more time. Either way, both scenarios are covered.
